INSTRUCTIONS: This report is to be completed by the manager of each employee. There are three main sections:

Performance Factors:

This section must be completed for all employees.

The descriptors under each factor describe a "Meets Expectations" rating for that factor.

Please check the appropriate evaluation in each category and include a comment or offer examples in each section. An explanation of each rating (e.g. "Exceeds Expectations") can be found in the last section under "Overall Appraisal."

Key Management Performance Factors:

Complete only if the employee manages other employees.

Goals and Accomplishments:

This section allows managers to enter:

- Status of goals they set for and with the employee for the year covered by the review
- The employee's accomplishments toward these goals
- The employee's strengths
- Any developmental issues to be addressed in the upcoming year; any performance factor identified as substandard should be addressed in this section through training and development remedies.
- New goals for next review period

Overall Appraisal/ Pay Increase Recommendation

Managers must select an overall rating that is supported by the information they have presented on the prior pages. In addition, summary comments can be made in this section. Employees should be encouraged to write their comments in this section, or attach a separate sheet.

Managers, please use the review to focus on performance, goals, and development plans for the upcoming year. Salary recommendations will be made separately from this review and, along with the review, must first be submitted to your department/division head. Once your department/division head has approved the overall budget, you should have a separate discussion with your employees regarding merit and/or structural increases.
