Professional & Liberal Studies Program
Post-Baccalaureate Certificate - Autism Studies Curriculum Requirements
(for students entering summer 2017 and later)

Name ___________________________________________ ID # ________________________________

Total # of Courses = 8 (26 credits)

Required Courses

1. IHS 465 Intro to Autism Spectrum Disorders
2. IHS 466 Applied Behavioral Analysis and Autism Treatment*
3. IHS 467 Social Skills Development in Autism*
4. IHS 473 Advanced Principles of ABA*
5. IHS 474 Applications of ABA: Functional Analysis and Ethics*
6. IHS 480 Practicum 1 (Field Experience)*
7. IHS 481 Practicum 2 (Field Experience)*
8. IHS 482 Practicum 3 (Field Experience)*

*If pursuing the BCaBA credential, the Behavioral Analyst Certification Board (BACB) requires a grade of “C” or better in the behavioral analysis and practicum courses (IHS466-482). Courses must be completed in the sequence outlined above.

Experience Requirement for the Board Certified Assistant Behavioral Analyst (BCaBA) Credential
Students who plan to pursue the BCaBA credential must complete an experience requirement under the supervision of a Behavioral Analyst Certification Board (BACB) approved supervisor. For additional information on options for completing this experience requirement, please see the BACB website at www.bacb.com.

The SJU adult learner program offers an intensive practicum to meet the BACB experience requirement. This includes three (3) practicum courses (IHS 480, 481 and 482) which require 19+ hours per week on site, supervised by a BACB approved supervisor.
