

HIGH SCHOOL PHYSICS RESEARCH CAMP APPLICATION FORMS

Saint Joseph's University is holding a Summer HS Physics Research Camp for HS Physics students and teachers. This camp was made possible by the Meggers grant from the American Institute of Physics (AIP) to the University of the Sciences. All costs associated with the camp, room and board are covered by the grant. Limited funds will also be available to help with travel expenses. Physics teacher will receive a compensation of \$500.

The camp invites teachers and students to work together on past IYPT (www.iypt.org) problems. Over the one week experience, students will build experiments, collect and analyze data and participate in a physics debate that is similar to the physics fights of IYPT. Teachers will learn all of the skills necessary to bring these research techniques back to their classrooms. Selected students and teachers will be provided with research questions beforehand and will be provided a brief collection of literature to review prior to their arrival.

Participants will arrive on campus Monday June 19 and will depart late afternoon on Saturday June 24. Students requiring housing will be accommodated in the SJU-UC residential facility in single or double rooms. HS physics teachers will be accommodated in single rooms. Breakfast, Lunch and Dinner will be provided every day.

Please find enclosed application forms for both students and teachers. Materials must be received no later than May 24, 2023. Only complete applications will be considered. Those selected to participate will receive email confirmation by May 20th. For students Authorization/Liability form (enclosed) must be completed and signed by the student's parent/guardian. The completed forms must be e-mailed to: eeschenazi@sju.edu
